

## Stormwater Compliance Site Design Solutions

HMH is on the forefront of understanding and implementing new technologies and strategies in the evolving regulatory environment of stormwater management. Our Stormwater Compliance division brings together the talents of our civil engineers, land planners, landscape architects, and certified stormwater professionals to address our clients' needs in responding to the increasingly stringent NPDES Permit requirements. We are currently incorporating new source control and treatment solutions on a wide range of projects throughout the Bay Area.

HMH maintains dynamic and interactive relationships with local and regional regulatory agencies in order to provide the best possible service to our clients. Our highly experienced team of managers, engineers, design professionals and support staff have the know-how to successfully guide even the most complex projects through the stormwater regulatory processes.
